

Pressed Brick Lets Contract for New Gas Well

C. K. DUFFIELD HAS CONTRACT AND IS NOW GETTING MACHINERY ON THE GROUND—TWO NEW KILNS ALSO IN COURSE OF CONSTRUCTION.

Some time ago the Pressed Brick plant here installed an additional kiln and press in the plant and immediately after the erection of two new kilns was commenced. The latter are now well under way with F. Duffield as the contractor. In order to prepare for the extra amount of gas necessary to operate these new additions to the equipment of the plant the company has decided to drill another gas well in their property. A contract has already been entered into with C. E. Duffield to drill this well and so is now getting his machinery on the ground. The new well will be located at the south side of the company's property and will be rushed through to completion as quickly as possible. With Mr. Duffield in charge the project is a foregone conclusion that there will be no unnecessary delay. This plant has had an exceptionally busy season and has been anxious to its utmost to keep up with the orders coming in from all quarters of the west. It is the intention to operate the plant all winter as prospects are most promising for the continuance of the demand for the excellent quality of bricks manufactured here.

ALBERTA EXHIBITS APPRAAL TO AMERICAN FARMERS

Keen interest in Alberta on the part of farmers in the middle western states and prospects for cattle as well as of very desirable settlers, that territory are reported by Publicity Commissioner D. A. McClellan, who has returned from a trip through Iowa, Nebraska, Missouri, Illinois, Wisconsin and Minnesota. The exhibit of Alberta agricultural products, which was shown at a number of fairs throughout this region made a strong appeal to farmers, and Alberta's cheap farm lands, low tax rate and heavy crop yields are stronger magnets to many who are farming under the same conditions elsewhere in this part of the United States.

TO PUMP GAS TO HOW ISLAND WELL

Experiments to test the possibility of putting gas from other yielding fields into the How Island field will commence within a few days or two according to C. J. Vessell, president of the gas company.

The principle of the experiment has been discussed for some time in Alberta and some experimenting has been done by the Imperial Oil Co. The idea will be to force back from the larger producers. Experiments have proven that, through this process, depleted wells may be used as reservoirs for gas which, unless stored in this way must go waste.

FIND GERM OF INFANTILE PARALYSIS

The germ of infantile paralysis has been definitely classified, thereby simplifying the task of science in its attempts to overcome the disease," stated Dr. W. L. Aycock, head of the Harvard Infanitary Paralysis Commission, said on Sunday. The main problem now is to find a suitable animal to yield an anti-toxin.

The only animal which takes the disease appears to be the mink," said Dr. Aycock, "and the latter's mortality is so slight that it is an unsuitable subject. When we discover the proper animal for serum purposes infantile paralysis will be controlled."

CANNING PLANT PLANNED FOR EDMONTON SOON

A site for a canning factory has been purchased in Edmonton by the Broder Canning Company of New Westminster, B.C., and an early start will be made with the erection of a plant which will can Alberta grown fruits and vegetables.

View Ware House for Dominion Glass Co.

Work Now Under Way For Building Which Will Be 80x100 Feet

Work on the construction of a new ware house on the Dominion Glass Co. property here is now well under way. The building will be 80 feet by 100 feet and will be located just inside the main entrance to the company's property. It will be built of corrugated iron and will run parallel with the large ware house which has been in use ever since the plant started operating. Donald MacLellan has the contract for the construction.

When this building is completed a suitable space will be provided to keep on hand over all the new ware house being manufactured at this plant.

Improvements at Hall's Filling Station

Lights Installed and Driveway Laid With Brick

C. E. Hall is making a big improvement in the appearance of the street in front of his store. Since installing a fine new filling pump for gasoline, a street light, and a new fire hose, he has been up to the task. The air tank has also been moved to make it more convenient, and the driveway up to the filling station has been laid with brick.

These improvements have not only given the front of the store a tidy and up-to-date appearance but have added considerably to the convenience of the customers.

Medicine Hat News Turning Conservative?

So Asks Prominent Farmer of this District

A editorial in yesterday's Medicine Hat News accuses the Conservative party of turning the News into a party organ. The writer, a prominent farmer of this district, says that the News has been "turning conservative" since the election of the Conservative government. He says that the News has been "turning conservative" since the election of the Conservative government. He says that the News has been "turning conservative" since the election of the Conservative government.

WHEAT POOL NEWS

Issued by the Publicity Dept.

Important changes have recently been made in the staff of the Central Selling Agency, which dispose of all the grain of the Saskatchewan, Manitoba, Alberta and Ontario Wheat Pools.

An office has been opened in London, England, and D. L. Smith, formerly general office manager, has been put in charge of this important post.

George McIvor has been appointed general sales manager. He was formerly western sales manager with the Canadian Wheat Pool at Calgary. Mr. McIvor's new duties require his residence in Winnipeg and he is leaving for that city early in October.

Donald McIntyre, assistant sales manager at Winnipeg, has been appointed eastern sales manager. G. E. Buchanan, who has been in charge of the Vancouver office of the Pool, will be the Vancouver office manager, located at Calgary, according to Mr. McIvor.

W. C. Elliott, assistant sales manager, has been appointed coarse grain sales manager. James Gibson of the Pool's Calgary office, has been appointed manager of the Vancouver office in succession to Mr. Buchanan.

The Central Selling Agency handled 129,000 bushels of wheat in 1925, besides the sale of coarse grain. Since the Pool was formed, the agency has handled 480,000 bushels of wheat and 50,000,000 bushels of coarse grain. The Calgary office handles all the western shipments and 55,000,000 bushels of the 1926 crop have been shipped west.

SCHOOL NEWS

The Literary Society put on a social evening at the school last Friday evening for the purpose of initiating the Grade IX students. The initiation ceremony proved most amusing for those who were not taking part. During the evening a number of games were played after which refreshments were served.

Trudy Walker led grade 4 in a waltz. Several of the pupils in grade 5 brought plates which had been made by the appearance of the room.

Chinese Missionary Coming to Redcliff

Will Deliver A Lecture in Gordon Memorial, Oct. 6th

On Tuesday evening, Oct. 6th, Dr. C. B. Cameron, United Church Missionary, who has recently returned from China will deliver a lecture in Gordon Memorial. This lecture should be of special interest because Dr. Cameron is in a position to bring first hand knowledge of the situation in that great land which has been the scene of so much trouble in recent years.

INTERNATIONAL POOL TO MEET IN REGINA

The next regular conference of the International Wheat Pool will be held in Regina, Sask., on June 6 to 8, 1928. It was decided by the committee of arrangements in Minneapolis Tuesday.

A dozen wheat producing states in the United States are members of the pool, as are three Canadian provinces with corresponding members in Russia and Australia.

Churches

ST. AMBROSE CHURCH

Mr. G. W. Rhodes

16th Sunday after Trinity, Oct. 2nd

Holy Communion, 9 a.m.

Choral Eucharist and Sermon, 11 a.m.

Minister's Service, 2 p.m.

Evening Service, 7:30 p.m.

Monday—Sale of Thanksgiving gifts

in Parish hall, 8 p.m.

Tuesday—Children's Choir practice at 7:15 p.m.

Wednesday—Jr. W.A. at 4:15 p.m.

Girls' Auxiliary, 7:15 p.m.

Thursday—Thanksgiving, 7:15 p.m.

Will commence service to which the great Thanksgiving service of the Christian Church is the Holy Eucharist

at 11 a.m. in the morning.

We hope to see all our communicants who are at liberty, at one of the two celebrations on Sunday. Parents and children will be particularly welcome at the 2 o'clock service, and we shall be glad of a good rally at the evening service and likewise at the social and sale on Monday.

2:30 p.m. Bowell. Rally Day service.

CHURCH OF THE BRETHREN

Rev. D. Hallager, Minister.

Unit service.

ST. MARY'S CHURCH

Celebration of Mass, Second and Fourth Sundays of each month at 10 a.m.

Redcliff Children Asked to Take Part in Rotary Parade

To Be Held in Medicine Hat Saturday Afternoon, Oct. 15

A special feature of the Rotary Carnival at Medicine Hat on Oct. 15th, 14th and 16th, will be the children's parade on Saturday afternoon which starts from the Riverside park at 1:15. In this parade the children will be dressed in all kinds of fancy and costume, and the Review has been requested to attend a special invitation to the children of Redcliff to take part. Those taking part may go on foot, on bicycles, on horseback, on their hands, or any other way in which they think they may draw the attention of the judges and win a prize.

For the parade, forty-two prizes are being offered to be given for the best costumes, comic and fancy and those pulling off the most amusing stunts. A halo band will lead the procession. Since Redcliff children are invited to a parade in the Rotary club for having the swimming pool here kept in operation all season, they should endeavor to do something to help make this parade a success.

Don't forget the date, Saturday, Oct. 15th, at 1:15 p.m.

Canada To Have Agricultural Jubilee

Will Be Held in Toronto at Winter Fair on Nov. 16 to 24

"Canada's agricultural jubilee" is to be celebrated in this sixtieth year of Confederation and the recognition paid to agriculture—the greatest of the Dominion's basic industries.

Announcement to this effect is made by Mr. W. R. Mackenzie, Federal Minister of Agriculture, who has initiated the plans through which it is hoped will be brought home to the people of Canada, the far-reaching extent and importance agriculture plays in Canadian life.

Mr. Mackenzie has taken the matter up with the various provinces and has secured ready assurance of co-operation to make the event successful. The complete details of the projected "Canada's agricultural jubilee" may not be announced yet, it has been decided to hold it in connection with the Royal Winter Fair at Toronto from November 16 to November 24 as the new building erected there jointly by the Dominion and Province of Ontario offer a splendid opportunity of the event.

CROP REPORT

Issued by Department of Agriculture, Edmonton, September 26

The delay in harvesting and threshing operations occasioned by the fall rains and snow on Friday and Saturday will be very slight and with a continuance of the present favorable weather, work will be resumed within a few days. The snowfall was heavier over the northern half of the province, but sun and wind are rapidly drying crops and little damage to crops in the field is anticipated.

A good start has been made with the wheat harvest in a number of districts and some exceptionally good yields have been reported. Most of the wheat harvested so far is grading No. 2 Northern, but the percentage of tough grain being marketed is sufficient to justify a warning to farmers not to supply machines in thresh before stocks have dried thoroughly.

Little difficulty is reported in securing sufficient labour to handle the crop and threshing machines are plentiful throughout the province so that with favorable weather little time will be lost in judging Alberta's record crop into marketable shape.

HON. CHAS. STEWART WANTS WELSH COAL

A news report from Paris says that while there Hon. Chas. Stewart, Canadian minister of interior, stated that the Canadian fuel problem could be solved by increasing the importation of Welsh coal.

This is not a very encouraging statement for the Welsh coal trade as it does at a time when Alberta is trying to get her coal to the Eastern Canadian market.

Brick & Coal Co. To Lay New Spurs

To Expedite Loading of Coal at the Mouth of the Mine

The Brick & Coal Co. is now preparing the ground at the mouth of the coal mine and getting it in readiness for laying new tub spurs in the vicinity of their loading equipment. These are being put in to facilitate the handling of coal and make it more convenient for the mine's service, coal produced at the mine.

The coal loadings at the mine showing considerable improvement and the company expects to have the new spurs and equipment in readiness to attend to the shipments this fall and winter.

Children Must Get Permit To Travel

As Guard Against the Spreading of Infantile Paralysis

A ban has been placed on the travelling privileges of the public during the epidemic of infantile paralysis to the extent that children under 18 years of age will not be permitted to reside outside of their home municipalities. In the evening Dr. Sharpe's text was, "Thy will be done on earth as it is in heaven." In a very impressive manner he reminded the hearers of what they were asking for when they used those words in prayer. Those using them should first tune their eyes will be to be in harmony with the will of God. Then their prayer would not be a vain or wish, but rather a sincere, earnest, and joyful cry.

ADDITIONAL LOCALS

Dr. Rogers is being congratulated by his friends today on the occasion of his birthday.

Jas. Blain of Toronto, is spending this week with his old school chum George Dickson, just north of town.

Mr. and Mrs. W. Moran of Lethbridge, have been viewing the work of the town with the latter, parents Mr. and Mrs. P. Lavelle.

Kenneth Duffield who left town a few weeks ago for Oklahoma has now secured a position with his brother George in the oil fields in that state.

A. S. Hodge met with a painful accident while engaged in his work at the glass plant last Saturday. He rendered and greatly enjoyed the work of the plant. He was hit on the head by a bottle which gave him a bad bruise on the arm. Although painful the wound is not serious.

Harold Duffield has received word from the Dept. of Education announcing that he has been selected as a passing two for the subjects he wrote on in the supplementary exams.

Gene Tunney retained the world's championship by winning the decision over Jack Dempsey in the ten round heavyweight bout at Chicago last Thursday. The reports from the ringside coming over the radio furnished an impressive proof of the marvellous development in rapid communication which this recent discovery has made. It was only a matter of seconds before the fight was over and all who were listening in on the ringside reports, knew the result and every movement of every round was reported just as it happened.

The provincial government is now issuing warnings to farmers to guard against prairie fires. The review has drawn attention to this matter previously. The rank growth this year makes fire guards more necessary than ever.

KNOW IN ENGLAND

Snow to the depth of two inches has fallen in the north of England and there has been an abnormal drop in the temperature along with the usual snowfall, the shepherds in the Westmorland Hills, predict an unusually severe winter.

Anniversary of Gordon Memorial Last Sunday

REV. DR. STEPHEN DELIVERS TWO IMPRESSIVE SERMONS—ANNIVERSARY SUPPER AND CONCERT ON MONDAY EVENING WELL ATTENDED.

With its pulpit and choir platform almost buried behind a bank of flowers of all colors and kinds, Gordon Memorial church looked its prettiest last Sunday for the anniversary service held on that day.

Good congregations for the services morning and evening were present for the occasion. Rev. Stephen of Calgary, who is always a welcome visitor in Redcliff, was the speaker at both services. In the morning his text was, "How is it that ye do not understand?" From this he preached a very impressive sermon, pointing out that God wants us to understand up to the limit of our intelligence.

Beyond that our knowledge of what God has done for us should give us faith to trust in Him and not worry about the rest. He also took advantage of the occasion to remind all those interested in the welfare of the church, that they should understand it was their privilege and duty to use the talents God gave them for His work in this corner of His vineyard. No talents were too small to be appreciated when used in this way. In the evening Dr. Sharpe's text was, "Thy will be done on earth as it is in heaven." In a very impressive manner he reminded the hearers of what they were asking for when they used those words in prayer. Those using them should first tune their eyes will be to be in harmony with the will of God. Then their prayer would not be a vain or wish, but rather a sincere, earnest, and joyful cry.

For both services the combined choir of the church rendered special music which added greatly to the success of the occasion.

Ladies Aid Supper

On the Monday evening following, the Ladies Aid gave a very successful supper. This was well attended and the ladies maintained their reputation as past masters at putting on a supper that appeals to the palate of the most fastidious.

After the supper a musical program was rendered by local talent assisted by Mrs. A. P. Burns and Jack Ellis of Medicine Hat. Miss McWane, of our local school staff, made her first appearance before the Redcliff audience as a soloist. The solo given by these singers were exceptionally well rendered and greatly enjoyed. Among the talent were Joe Hicken and Ed Cook in vocal and instrumental selections, Miss Hilde and Tom McWane, in a quartet, and a piano accompaniment by Miss McWane. There were also Mrs. McWane, Miss Viva Cox, Mrs. H. T. Ford, and Miss Sillman acted as accompanists.

During the evening short addresses were given by Dr. Stephen and Magistrate Ellis. Both congratulated the congregation on its success during the past year and expressed the hope that it would continue to prosper in the future.

FOX FARMING IS GROWING IN ALBERTA

The number of silver foxes on 258 farms in Alberta has doubled during the past year; from the year of the sale of Alberta-owned foxes will be more than 600,000 in number, with this there will be a considerable increase from the sale of the foxes for breeding purposes. Alberta at the present time ranks fourth among the provinces of the west in regard to the raising of the fox industry.

ARMAMENT REDUCTION IN THE NEAR FUTURE

In closing the assembly of the League of Nations, Senator Gauthier of Uruguay, declared that the world was to reduce armaments gradually to improve the League assembly.

The league is in the minority at the present time in the assembly. The declaration, he declared, indicated that the first reduction of armaments would not be an easy task. He believed that the nations would now "call for a reduction of armaments."

400 DAY CLOCK

Contest Closes Friday at 9 p.m.

—JUST ONE MORE DAY—

Votes are on all Friday night at 9 p.m. All votes must be in for judges to examine by 9 p.m. Oct. 1st. Result of the contest will be announced Saturday night at 9 p.m.

STREET LIGHTS

THE vast improvement made on the appearance of Broadway by the installing of a new light at C. T. Hall's store corner, has been the cause of much favorable comment. Now everyone is asking, "Why doesn't the Council put in a few more of these standards along our streets?"

For some time past the town has been very poorly lighted for a town which is in the centre of one of the greatest natural gas fields in Canada. At the present time a large percentage of the standards in the several streets are not in working order. Some of them are not burning at all while others are giving out only a fraction of what they are capable of giving for the amount of gas consumed. At the same time we understand that the town is paying for gas for thirty lights and that the consumption of these thirty is judged by one light in good order at the town hall. If this is right then the town is paying for something it is not getting, as it is a safe bet that there are not thirty street lights in running order. And further, if we are paying for gas for thirty street lights our town should be much better lighted than it is.

Now that winter is coming on it would be well to give some attention to this matter.

GOOD ROADS

IT has been said that the reason a number of farmers left the southeastern portion of this province was not so much because of drought as because of lack of railroad accommodation, and consequently, because of the extra expense to which they were put in getting their produce to market. The farmers of these districts are now trying to solve their own problem. In their endeavor to do so, many of them are purchasing trucks, and in some cases several farmers are combining in these purchases, or are securing the services of an outsider who already has a truck, to do the freighting for the district.

This being the case it is absolutely necessary—if the venture is to be a success—that the government pay more attention to the providing of more substantial highways from these districts to their marketing centres than we have at present.

Just as a chain is no stronger than its weakest link, so will our roads from districts twenty or thirty miles from their marketing centres be judged for their ability to allow farmers to get their produce from the farm to the market with dispatch and ease over the whole distance. Three or four miles of bad roads here and there over the journey will cause delays and mishaps which will make the venture unprofitable.

This is a motor age. They have become an almost absolute necessity on the farm. Farming is the most important industry in Alberta. The progress development of the province depends largely on the success of farming. The government derives a large revenue from auto and truck licenses and we have in this province what is called

a farmers' government.

We hear from all quarters that the greater need of this province at the present time is farmers' immigrants to settle and develop our thousands of acres of vacant farm lands. Statistics show that millions of dollars are spent in this province annually by auto tourists who are attracted to Alberta because of its incomparable scenery and unlimited resorts. That this traffic will be lost unless the avenue to them are reasonably safe and comfortable is also a great probability.

With all these facts before them the provincial government should have no excuse for delay in starting a systematic program of permanent road making. It is well known that road making is an expensive undertaking yet when so much is at stake, it is quite apparent that something along this line must be done at once.

Owing to the falling off of advertising this week the Review

is cut down in size. Unless there is some improvement soon we will be forced to trim off another couple of pages.

Score cards for what drives can be obtained at Review office at a reasonable price.
